

TUCSON

Engineered for the Extraordinary

With a bold and classy exterior alongside its stylish and comfortable interior, the new TUCSON will take your drives to new, exceptional heights.

Rearing Up with Style

Leave everyone mesmerized with a sporty and bold rear profile. The hidden rear wiper also adds to the vehicle's clean and modern aesthetic.

Exterior

Sporting a timeless 3D parametric-style grille and jewel-like surfaces, the new Tucson is for trendsetters with a flair for the futuristic.

367 Maximum Torque
Nm/4,000 RPM

Hybrid Technology

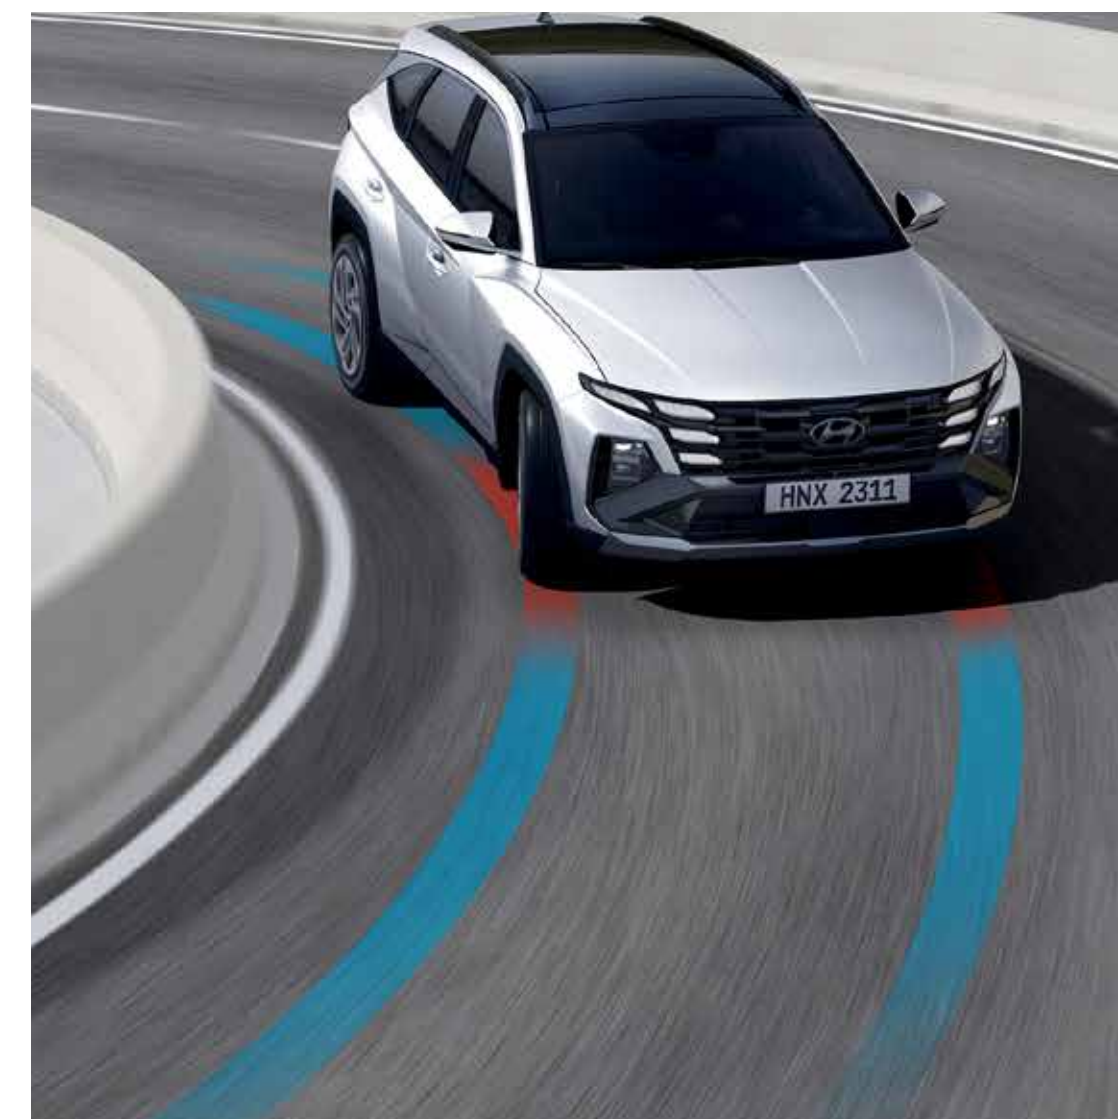

Feel the difference in every drive with our responsive hybrid technology.

Hybrid Exclusive Features

Paddle Shifter-Regenerative Braking Mode

e-Dynamic Drive
When the vehicle approaches a turn, the hybrid system reduces understeer through brake controls while maintaining the ideal level of tire grip.

e-Comfort Drive
When passing speed bumps, the hybrid technology helps reduce vehicle shaking (pitch motion), resulting in a smooth ride even on uneven roads.

HyundaiSmartSense

Lane Following Assist (LFA)

The front camera will track lane markings and assist the driver in keeping the vehicle safely in the middle of the lane.

Forward Collision-Avoidance Assist (FCA)

This system warns the driver when it detects a risk of collision from the front or when trying to turn right, such as with a pedestrian or with a vehicle that suddenly slows down or stops.

Blind-spot Collision-avoidance Assist (BCA)

Monitor your blind-spots while driving. Should there be other vehicles detected around your car, the LED on the rearview mirror will light up to provide warning.

If there is a risk of collision with a vehicle on the side at low speeds (0-3 km/h), such as when exiting a parallel parking position, the system automatically assists with emergency braking.

Smart Cruise Control (SCC)

Smart Cruise Control (SCC) helps drive the vehicle at the speed set by the driver while also automatically maintaining distance from the vehicle in front. If the vehicle in front stops, SCC will automatically reduce speed until your vehicle stops as well, and will automatically start when the front vehicle departs within a short time.

Forward/Side/Reverse Parking Distance Warning (PDW)

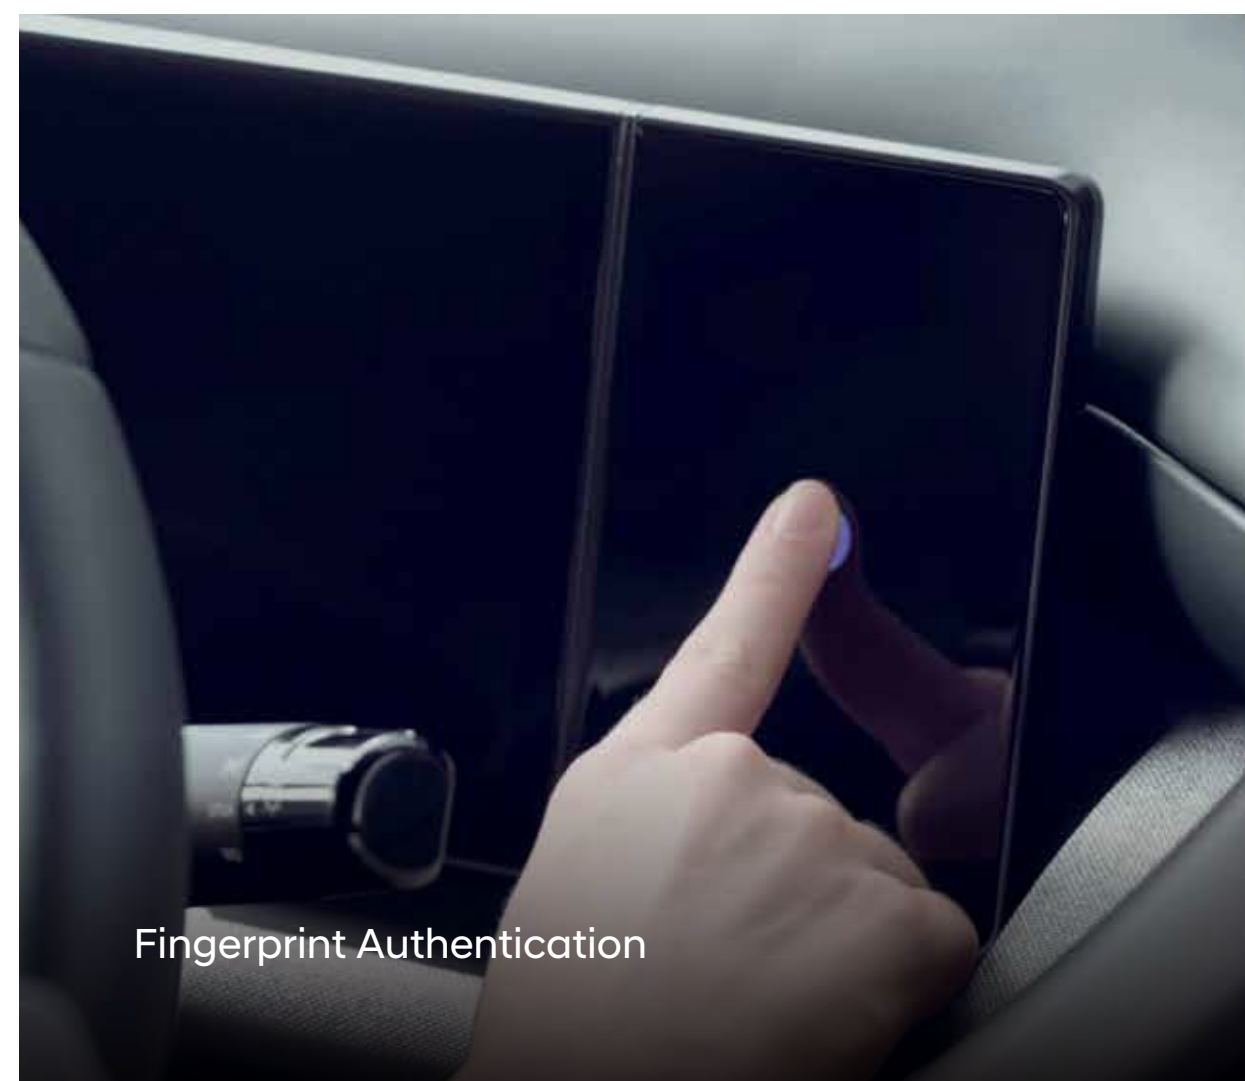

Gives a warning when there is a possibility of collision with objects around the vehicle at low speed.

Parking Collision Avoidance Assist (PCA)

Provides warning if there is a risk of collision with an object behind when reversing the vehicle. If the risk of collision increases, the system automatically assists with emergency braking.

Comfort & Convenience

Configuration Options

Exterior Colour Options

Phantom Black Pearl
(TCM)

Creamy White Pearl
(TW3)

Titan Gray Metallic
(R4G)

Ocean Indigo Pearl
(PS8)

Amazon Gray Metallic
